

PRE REQUISITE REQUIRED FOR THIS COURSE NO EXCEPTION

2 Day Handgun Skill Builder (Night)

Handgun Skill Builder (Night) is the follow-up course for students who have completed the Two-Day Handgun Skill Builder or Four-Day Defensive Handgun course.

Cost: \$1,000.00

Prerequisite Class(s): See table below

Why Night Courses?

Most fights occur during times of low-light or even complete darkness. Training during daylight hours alone is not preparing you to win should you ever need to fight with your firearm in the dark. That's why KLA offers you a selection of our courses at night. We offer our night courses during the summer months when the daytime temperatures in southern Nevada are quite hot but the nights are beautiful. The weather during the night courses is usually about 70-75°, calm, and clear. Who could ask for better training conditions?

Hours of Training:

The night courses run from 6:30 p.m. through 12:30 a.m. Please plan on being at KLA from 4:00 p.m. until 1:00 a.m.

OVER NIGHT STAY IN WEST VIRGINIA INCLUDED

How are the night courses different from the daytime versions?

KLA's night courses start in the evening before the sun sets. This allows a brief review of the skills learned during the prerequisite courses. As the sun sets and the light fades, you will be learning low-light techniques to get reliable hits on your target. Once the ambient light is gone, you will be using your flashlight to gain target identification, sight alignment, and sight picture. You will learn night-specific After Action Drills and malfunction clearances. The night courses offer a variety of tactical exercises and do not have a skills test.

Prerequisites:

You must have completed an appropriate daytime course at KLA in the weapon you wish to use at night. Listed below are the courses which satisfy the prerequisite for each night course.

<u>2-Night Courses</u>	<u>Minimum Prerequisite</u>
Defensive Handgun	2-Day Defensive Handgun
Handgun Skill Builder	2-Day Handgun Skill Builder, or
